Bible Fit Guide

Your Bible deserves a home that fits it just right. Take a quick measurement, then use this guide to find the Ever, AJ bag or case made for it.

How to measure your Bible

① Height. Stand your Bible up and measure from the bottom edge to the top.

② Width. Measure across the front cover, from the spine to the edge of the pages.

③ Spine. Lay it flat and measure the spine at its thickest point.

④ Compare all three numbers with the sizes on the next page. If any one of them is larger, the next size up will be the better fit.

Measure in inches with your Bible closed, including any tabs or notes you keep tucked inside.
